

Curious George: The Golden Meatball
Moments to Note

Thank you for coming to see Curious George: The Golden Meatball! We hope you and your family have a great experience at this show. This is a relaxed performance, which means that we have made some small adjustments to make the production more accommodating of individuals with sensory sensitivities.

- The audience capacity has been reduced to allow for more space between people/groups
- House lights will be kept on a low level over the audience throughout the show
- Sound levels have been lowered during the noisiest moments
- Flashing lighting effects have been greatly reduced

While we have done our best to make this performance comfortable for everyone, it is still a very high energy, stimulating show. There are a few moments in the show that you may want to be aware of in advance:

| TIME (approximate from start of show) | ACTION |
|---------------------------------------|--|
| 0 minutes | Big song with all the actors and actor interaction with the front row (Curious George Theme) |
| 19 minutes | Big song with actor interaction with the front row (Who's Got Time?) |
| 37 minutes | Chaotic chase scene with lots of running around (Go, Monkey Go!) |
| 50 minutes | Big song with all actors and actor interaction with the front row (Curious George Theme Song Finale) |

You are welcome to get up and leave the theater at any time to take a break in the lobby or the quiet room downstairs. You can always come back in to rejoin the show when you are ready!

Enjoy the show!
